"AI in manufacturing : le potentiel de l'IA appliqué à votre entreprise"

Take part in an event dedicated to discovering the realistic opportunities artificial intelligence has to offer in your company!

The event "AI in manufacturing : le potentiel de l'IA appliqué à votre entreprise", consisting of an awareness session and workshops, is organised by Agoria, MIC-Wallonie and the Agence du Numérique in the context of DigitalWallonia4ai, Industrie du Futur and WalHub. It is specifically designed for small and medium-sized enterprises and mid-caps that develop or manufacture products and are looking for ways to:

- Optimise their operations,
- Improve their efficiency,
- Gain a competitive advantage.

Note that this event is in French.

As AI is one of Sirris's expertises, our experts will contribute to the programme, in the introduction to highlight AI use cases in manufacturing industry, as well as in one of the workshops to present what we have achieved, more specifically in the field of energy.
