Customise your programme to stay ahead of the curve

From 7 to 18 October, Sirris and Agoria present **Up2Date** (previously known as ‘Acumen’), a comprehensive online event designed to keep you informed about the latest trends and innovations. Over these ten days, join **more than 70 interactive online sessions** covering a wide range of cutting-edge topics across various domains.

This article was published on 07/08/2024, updated on 27/08/2024.

Key topics include:

- **Sustainability reporting**: learn about the latest standards and practices for transparent and impactful sustainability reports.
- **Green transition**: explore strategies for a seamless shift toward environmentally friendly practices and technologies.
- **HR innovations**: discover new trends in human resources management, including employee engagement and talent acquisition.
- **Digitalisation**: understand the transformative power of digital technologies in enhancing business operations and customer experiences.

- **Product compliance**: stay informed about regulatory requirements and ensure your products meet compliance standards.
- **Technological innovation**: dive into groundbreaking innovations reshaping industries and driving progress.
- **AI in manufacturing**: explore the future of artificial intelligence in the manufacturing sector and its potential to revolutionise production processes.
- **Product innovation**: uncover the secrets to successful product development and market disruption.

Why attend Up2Date?

- **Expert-led sessions**: gain insights from industry leaders and experts from Sirris and Agoria who are at the forefront of technological and industrial advancements.
- **Interactive learning**: engage with interactive sessions that encourage discussion and knowledge sharing to enrich your understanding.
- **Tailored experience**: customise your programme to align with your interests and professional needs, ensuring you gain the most relevant insights.

Sirris sessions

During Up2Date, Sirris will present some of the online sessions:

Innovating & growing, with a little help from Sirris!

7/10/024 | 15:00 | Dutch

In this session, you will find out how Sirris, as a dynamic non-profit organisation, helps Belgian manufacturing companies to innovate and gain a sustainable competitive advantage. Discover how, together with our 150 experts and a network of 200 partners and industrial labs, we support companies in realising their innovation ambitions.

How to solve your production planning problems

9/10/2024 | 15:00 | English

Planning production is a challenging task for many manufacturing companies. These planning issues often result in low delivery reliability, long and unpredictable lead times, and significant chaos on the shop floor. In this session, we will present the primary solutions and explain how to best integrate them. The webinar focuses on straightforward, practical solutions that are accessible to everyone.
