

Make the Future: Your Pathway to a Factory of the Future

02 October 2024, 14:50

Ann Debaere

Get ahead and build your Factory of the Future with Sirris and Agoria

Are you a manufacturing company in Belgium? Want to stay ahead of the competition and build resilience in a world that’s always changing? The 'Make the Future' programme is designed to guide manufacturing companies in Belgium build their Factory of the Future. With experts from Agoria and Sirris by your side, you’ll get the support you need to transform—whether it's implementing cutting-edge technology, kicking off a circular economy project, or making those vital small improvements. The secret? Start today—and keep evolving!

What’s holding you back?

No matter your size, every manufacturing company faces the same hurdles: high labor costs, rising energy prices, and the challenge of keeping up with lightning-fast technological advancements. And let’s not forget, customer demands are getting tougher, while sustainability regulations are becoming stricter.

In this fast-paced environment, how can you stay competitive? Here's how:

- Cut energy consumption
- Unlock the full potential of your workforce
- Attract fresh talent
- Keep your production base strong in Belgium
- Embrace sustainable practices

You don't have to do it alone

"You can't just transform once—transformation is ongoing. And doing it alone is hard, especially for SMEs," says Julie Leroy, Project Leader at Make the Future.

This is where Make the Future shines. As a joint initiative between Agoria and Sirris, this programme is designed to help manufacturing businesses like yours build a future-proof operation. Whether you're digitalizing processes, improving working conditions, or installing a robot, every step forward matters. The goal isn't just the Factory of the Future label—it's about driving continuous improvement and real transformation.

A proven approach: the 7 transformations

The Make the Future programme is built on 7 key pillars of transformation. But as technology and business evolve, so does the methodology. We've updated our approach and indicators to reflect these changes. Keep an eye out for upcoming detailed articles from Agoria and Sirris that dive into each transformation.

Ready to take the first step towards becoming a Factory of the Future?

The Make the Future program is open to all manufacturing companies that are members of Agoria or Sirris. Wondering where your company stands? **Book a no-obligation evaluation** to assess your business's current maturity level. You'll receive a detailed report packed with actionable insights to speed up your transformation. And the best part? It's **free for members of Agoria and Sirris**.
